Many called the Tiger Dragon game two-card Baccarat because the logic of these two games is quite similar. There is no confrontation between the hands of the player and the dealer as in Baccarat, but there are two hands, and your task is to guess which one will be the winning one.

As we can understand from the name of this casino, Dragon Tiger game, Dragon and Tiger cards are in opposition to each other in this game. Each is given only one card, and the one with the highest value wins. A feature in Dragon Tiger online betting game is that the youngest card is

considered an Ace, so the seniority is deuce three and so on, up to the king. Thus, three outcomes are available for basic bets in real Dragon Tiger game, including:

During the Dragon vs Tiger game, if cards of the same denomination fall out, a draw is fixed, and if the player bets on a draw, then according to the rules, a payment of half the bet is applied.

The rules of the Dragon versus Tiger game are quite easy and easy to understand for literally everyone. Let's start with the fact that the Dragon Tiger game online uses a standard English deck which consists of 52 cards.

Players in the Dragon Tiger card game are dealt cards from eight decks in which jokers are not considered. The player can bet on both dragon or tiger or a tie bet. Whoever has the highest card value – wins the Tiger Dragon casino game. In the event of a draw, the player is returned half of his initial tie bet, and the payout is 10:1 or maybe more, depending on the casino where you play. In addition, there are some Dragon Tiger game tricks – the Dragon Tiger game rules allow players to make additional bets as well, which include, for example, large and small bets that allow the player to predict whether the card given to the Dragon or Tiger will be large or small.

In this case, a large card means its value will be greater than seven, and a small card means its value will be less than seven. Also, players can make a Dragon vs Tiger prediction on the colour of the card given to each animal.

Even as a successful player, you may sometimes experience challenges playing the Dragon Tiger card counting game. But, with the right Dragon Tiger winning tricks, you can always ensure the games are on your side!

Here are key Dragon Tiger game tricks to execute during your next live casino play so you can bring home with you big money;

The first prerequisite to ensuring the odds of winning are always on your side is knowing the rules. So, before hitting the tables, you want to master the Dragon Tiger strategy and game rules. Doing so also makes it easy to execute simple and complex Dragon Tiger tricks much easier. If you have been incurring losses for a while now, here's a game-changer! You can use the Martingale strategy, as part of your Dragon Tiger game-winning tricks, to increase your bet stake and do so with each progressing round. For example, you can place a 78 INR bet on the tiger side.

However, if you lose, double the bet on the next round. Continue doing the same with each progressing round if you lose, so for round 2= 156 INR, round 3= 312, and so on. But, stick to the

tiger side when placing your bets to enhance your chances of winning. Once you win, you can return to the initial bet of 78 INR. This strategy reduces the likelihood of losing as you progress to the next round; you will be at about 15% by the third round. Nonetheless, to successfully execute this round, start Dragon Tiger online game with a smaller wager you can handle as it doubles with every round, and never switch the side; if its a tiger, stick to it, and if it's a dragon, stick to it!

Well, now that you know what the Dragon Tiger game is like in playing it and what rules exist, you can easily start winning real money at Parimatch online casino.
